## PROFILE & EXPERIENCE :

### Front-End Developer

Work as a Front-end developer through freelance websites of all kinds. Sometimes I work on projects individually, and sometimes I work collectively, depending on the type of work. Our work and purpose revolve around: Working with clients to develop the overall look and design of a website, and writing website code with programming languages such as HTML, CSS, JavaScript, Bootstrap and other tools. production maintaining and modifying websites and user interfaces, incorporating applications, graphics, audio and video clips into client websites. Creating tools that enhance the user's website experience. Ensuring websites are accessible across many platforms, including laptops and smart phones. Routinely testing websites for ease of use, speed and other quality factors. Fixing any website issues or bugs that arise.
